# Transforming Sub-Conscious Beliefs Workshop

## With Keith Guenther

### Sunday, September 16, 2018

Learn how to clear out trapped emotions and limiting beliefs that hold you back from realizing your true nature. In this workshop you will learn Applied Kinesiology (Muscle testing) for yourself and others (including pets). You will learn and be given the resources to use the Emotion Code on yourself and others (including pets).

The Emotion Code is a healing modality used to access the sub-conscious mind to identify and remove trapped emotions.

We will introduce you to The Body Code which is an expansion of the Emotion Code. You will also be introduced to PSYCH-K which is a user friendly way to rewrite the software of your mind and change the printout of your life, by looking at our beliefs and if appropriate how to change them to be more empowering.

By the end of the workshop the goal is for everyone to be comfortable muscle testing and using the Emotion Code for themselves and others (including pets). The other modalities will be introduced and examples shown, with information about further study.
