Law of Attraction Workshop

There's a power for good in the Universe and we can use it!

Ernest Holmes recognized this power . . . and so did Jesus and Buddha, and many other teachers both ancient and contemporary.

We are going to go deep into more recent discoveries of:

- How this power actually works, and the one thing it needs
- The language of the Universe and why lottery winners don't keep their money
- The two most important beliefs you must have
- The two questions you must ask when things aren't coming
- The 7 inner emotions
- Why positive thinking and affirmations don't work,
- How to want and still remain unattached

And what to do when you're feeling stuck, frustrated, confused and discouraged because what you want just isn't coming. In between all of that, we'll do some processes to make our desires come quicker.

If you love treatment and you want to take it deeper, you'll want to be in this interactive workshop.

Come with 2 thoughts in mind:

1. Something new, fairly small, that you want to manifest - not the biggest, most unbelievable, thing; and
2. Something you've wanted to manifest that isn't coming.
