

Joyful Gathering Spiritual Center

Sunday, June 9

12:15 – 2:15

Experiential Workshop

**“The Evolution of Humanity From
Magnificence to Magnificence”
with an Introduction to Pineal Toning.**

Who are you? We know the answer right?

You are a magnificent, multidimensional, infinite, unique, sovereign individuation of Source with all its power to create and all its qualities available to you. You are omnipotent, omniscient, and omnipresent, and you are one with all that is Real.

We can never change the truth of who and what we are, but we can *believe* something different about ourselves, and have *experience* according to our limited beliefs.

Understanding our multi-dimensional Self allows us to let go of incongruent beliefs and limitations so that we can begin to live this life from our Wholeness as empowered Divine Humans according to our original Divine design.

Ernest Holmes in the Science of Mind says:

“It is through the revelation of the self to the self that one understands life, and that he approaches the power which is at the heart of God.”

We have been studying, practicing, and preparing for this time; and now it's here. It's time to fully discover and embody our true full power and sovereignty aligned with divine will and unconditional love, and join together to co-create a personal and collective dimensional human reality that is so like the ultimate True Reality that no difference can be perceived.

Join facilitator Rose Zubrzycki at Joyful Gathering Spiritual Center in Westmont for some clear talk on how to navigate this human experience as your true self, and for a deep experiential dive into your most important and intimate relationship enhanced with powerful pineal tones remembered by Dr. Todd Ovokaitys (see pinealtones.com)

Facilitator: Rose Zubrzycki

Cost: \$20
